Delta Tau Data Systems, Inc. Statement Regarding Conflict Minerals

Delta Tau has been working closely, with our numerous suppliers to ensure components using minerals in this regulation are properly sourced, and to the best of our knowledge do not originate from the conflict areas listed in section 1502 of the Dodd-Frank Act.

Although we have not received replies from all of our suppliers, many have already replied to verify their status or working knowledge of this act. With survey results from suppliers to Delta Tau we have determined to the best of our knowledge none of these substances come from “conflict mines” in or around the DRC.

We, Delta Tau, will continue to receive input from our supply base and will make supporting documentation available upon request.

Regards,

Jerry Brown
Quality Manager
